If you thought the new Website was only about getting the Focal Plane from the Web read on!

The RCC Website http://www.ridgewoodcameraclub.org

• The data is up-to-date

- Changes are made to the Calendar, Workshops, Programs, and the Executive Committee listing throughout the year after the hard copy publications are produced.
 - The Website is easily updated as those changes are made.
 - Those corrections were hard to impossible to distribute in the past.

• Single Source of information

- You can now go one place to find any information about the club
- You no longer have to search your house to find the Calendar, The Focal Plane, the Flyer, the Membership list, the Rules of Competition, the Constitution and By-Laws, the Places to Photograph publication or your Duties book.
 - You are also assured of having the latest revision.
 - Prior updates were hard for each individual to maintain and expensive to produce.

• Library Service

- All main information from here on out is placed in the Website library for you.
- If you need historical information for any purpose it is on the Website.
 - An example is a determination of what Programs have been given at the club in the past.

• Automated member information updates

- Members now have a convenient and automatic means of updating any of their personal information for our records. If a member moves or changes their phone number or Email address they can send us the updated information through the use of a simple form.
 - The form is automatically Emailed to the Membership Chairman for updating the Member database records.

• Master Email Distribution service

- We now maintain a simple list of the Email addresses for all RCC members who have Email service
 - We can easily distribute general information quickly to those members.

• New information available to the members.

• Information concerning Club history, member contact information, static and interactive information on digital imaging, related Websites of interest and Community Outreach projects is now available.

• Meeting Cancellation Notices

- Cancellation of a General Meeting for weather or National emergency can easily be posted on the website. (See the Meetings page)
 - Email and phone broadcast of these cancellations is slow and clumsy at best.

• Prospective members

- As the only camera club in the Northern New Jersey area the Website has increased our visibility to prospective members in this high density population area.
- We also display the number and depth of the activities conducted. It is awesome what we offer especially for \$40.00 a year.

- International Salon
 - Participation in all International Salons has been decreasing.
 - In the July 2001 PSA Journal article by Ara M. Chakarian shows that the participation in our RCC International has decreased from 508 entrants in 1996 to 391 in 2000.
 - The new Website allows anyone in the world with access to the Web to learn about our International well in advance and to obtain an entry form. Hopefully that will either slow the reduced participation or turn it around.
- Leadership
 - As the largest camera club in New Jersey we have an obligation to lead the way for other camera clubs. Use of the new technology is one way of showing the way for other camera clubs in the state.
- New Revenue
 - We can sell advertising space on the web similar to the way that the NJFCC sells advertising space in the Cable Release.
 - We are large enough, especially in the Northern New Jersey area, to offer advertisers significant exposure for their products and services.

Serious and advanced photographers are the ones who buy those \$10,000.00 plus long lenses and shoot and process all that film.

"JUDGING DAY - SATURDAY JAN. 26" The entries for our 19th RCC International Exhibition of Photography are now being received. They come from many oversea exhibitors and, of course, from across the U. S. A. The Processing of the entries is an involved process where each entry is assigned a number and its' four slides are prepared for showing on judging Day. Judging Day starts at 9:00 AM SHARP.

We have three respected International Judges. They will each score 1 to 5. A scoring range of 3 - 15. The slides are processed so that each entrant's first slide is shown in Round 1; their second slides in Round 2; etc. There are breaks between the rounds. A lovely buffet is served between the 2nd and 3rd round for a small fee.

The entrants are looking for "acceptances". The number of acceptances make them eligible for Star Ranking. Generally, about 25% of the entries receive acceptances. This number can vary based on number of entries or the quality of the entries. A scoring level is selected that gives us a desired level of acceptances. After the fourth round, the acceptance level is determined; the number of HM's is determined and then the medal picking for the various medals takes place.

Around 5:00PM, or so, we conclude the Judging and go to the Ramada Inn in Mahwah, on Route 17 South, just below Route 202, for dinner. Two choices are available and the dinner runs around \$25.00. All are welcome. See Chick to reserve your place.
